Tutorial

Hello, thank you for purchasing my template!

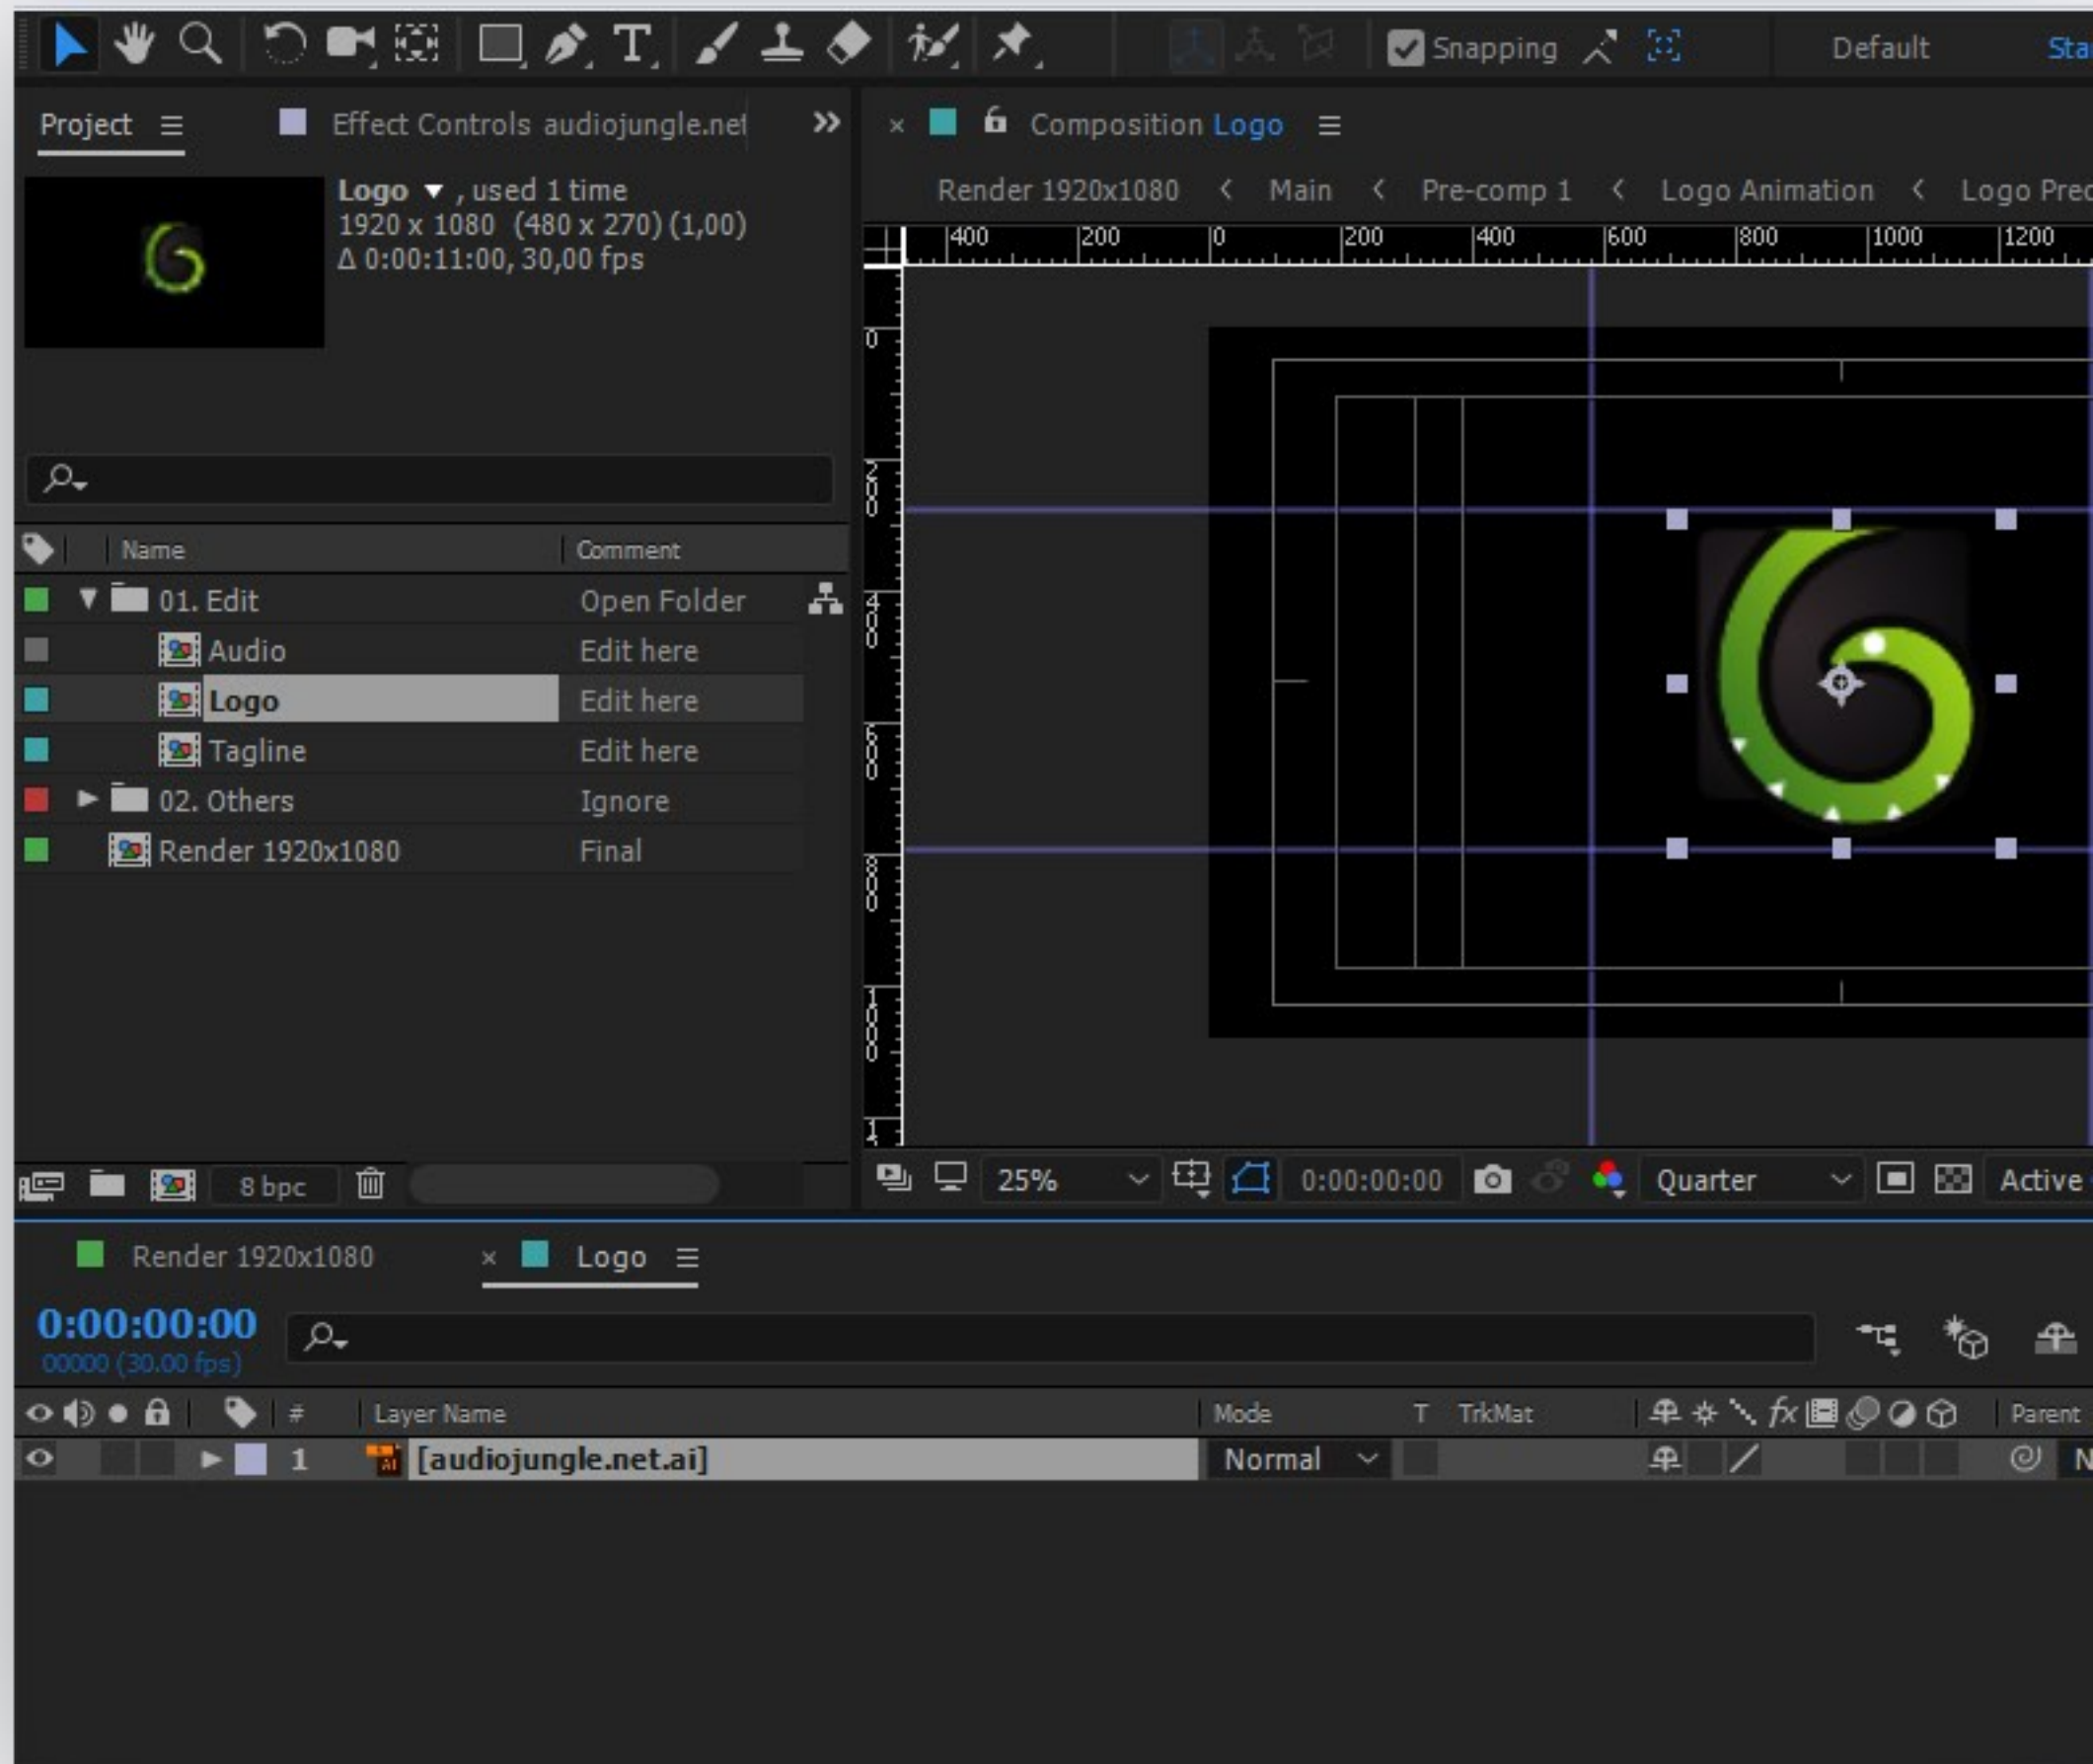

For the correct work of the template you need to install all the used fonts. (Links in the **Font.txt** file)

Replace Logo

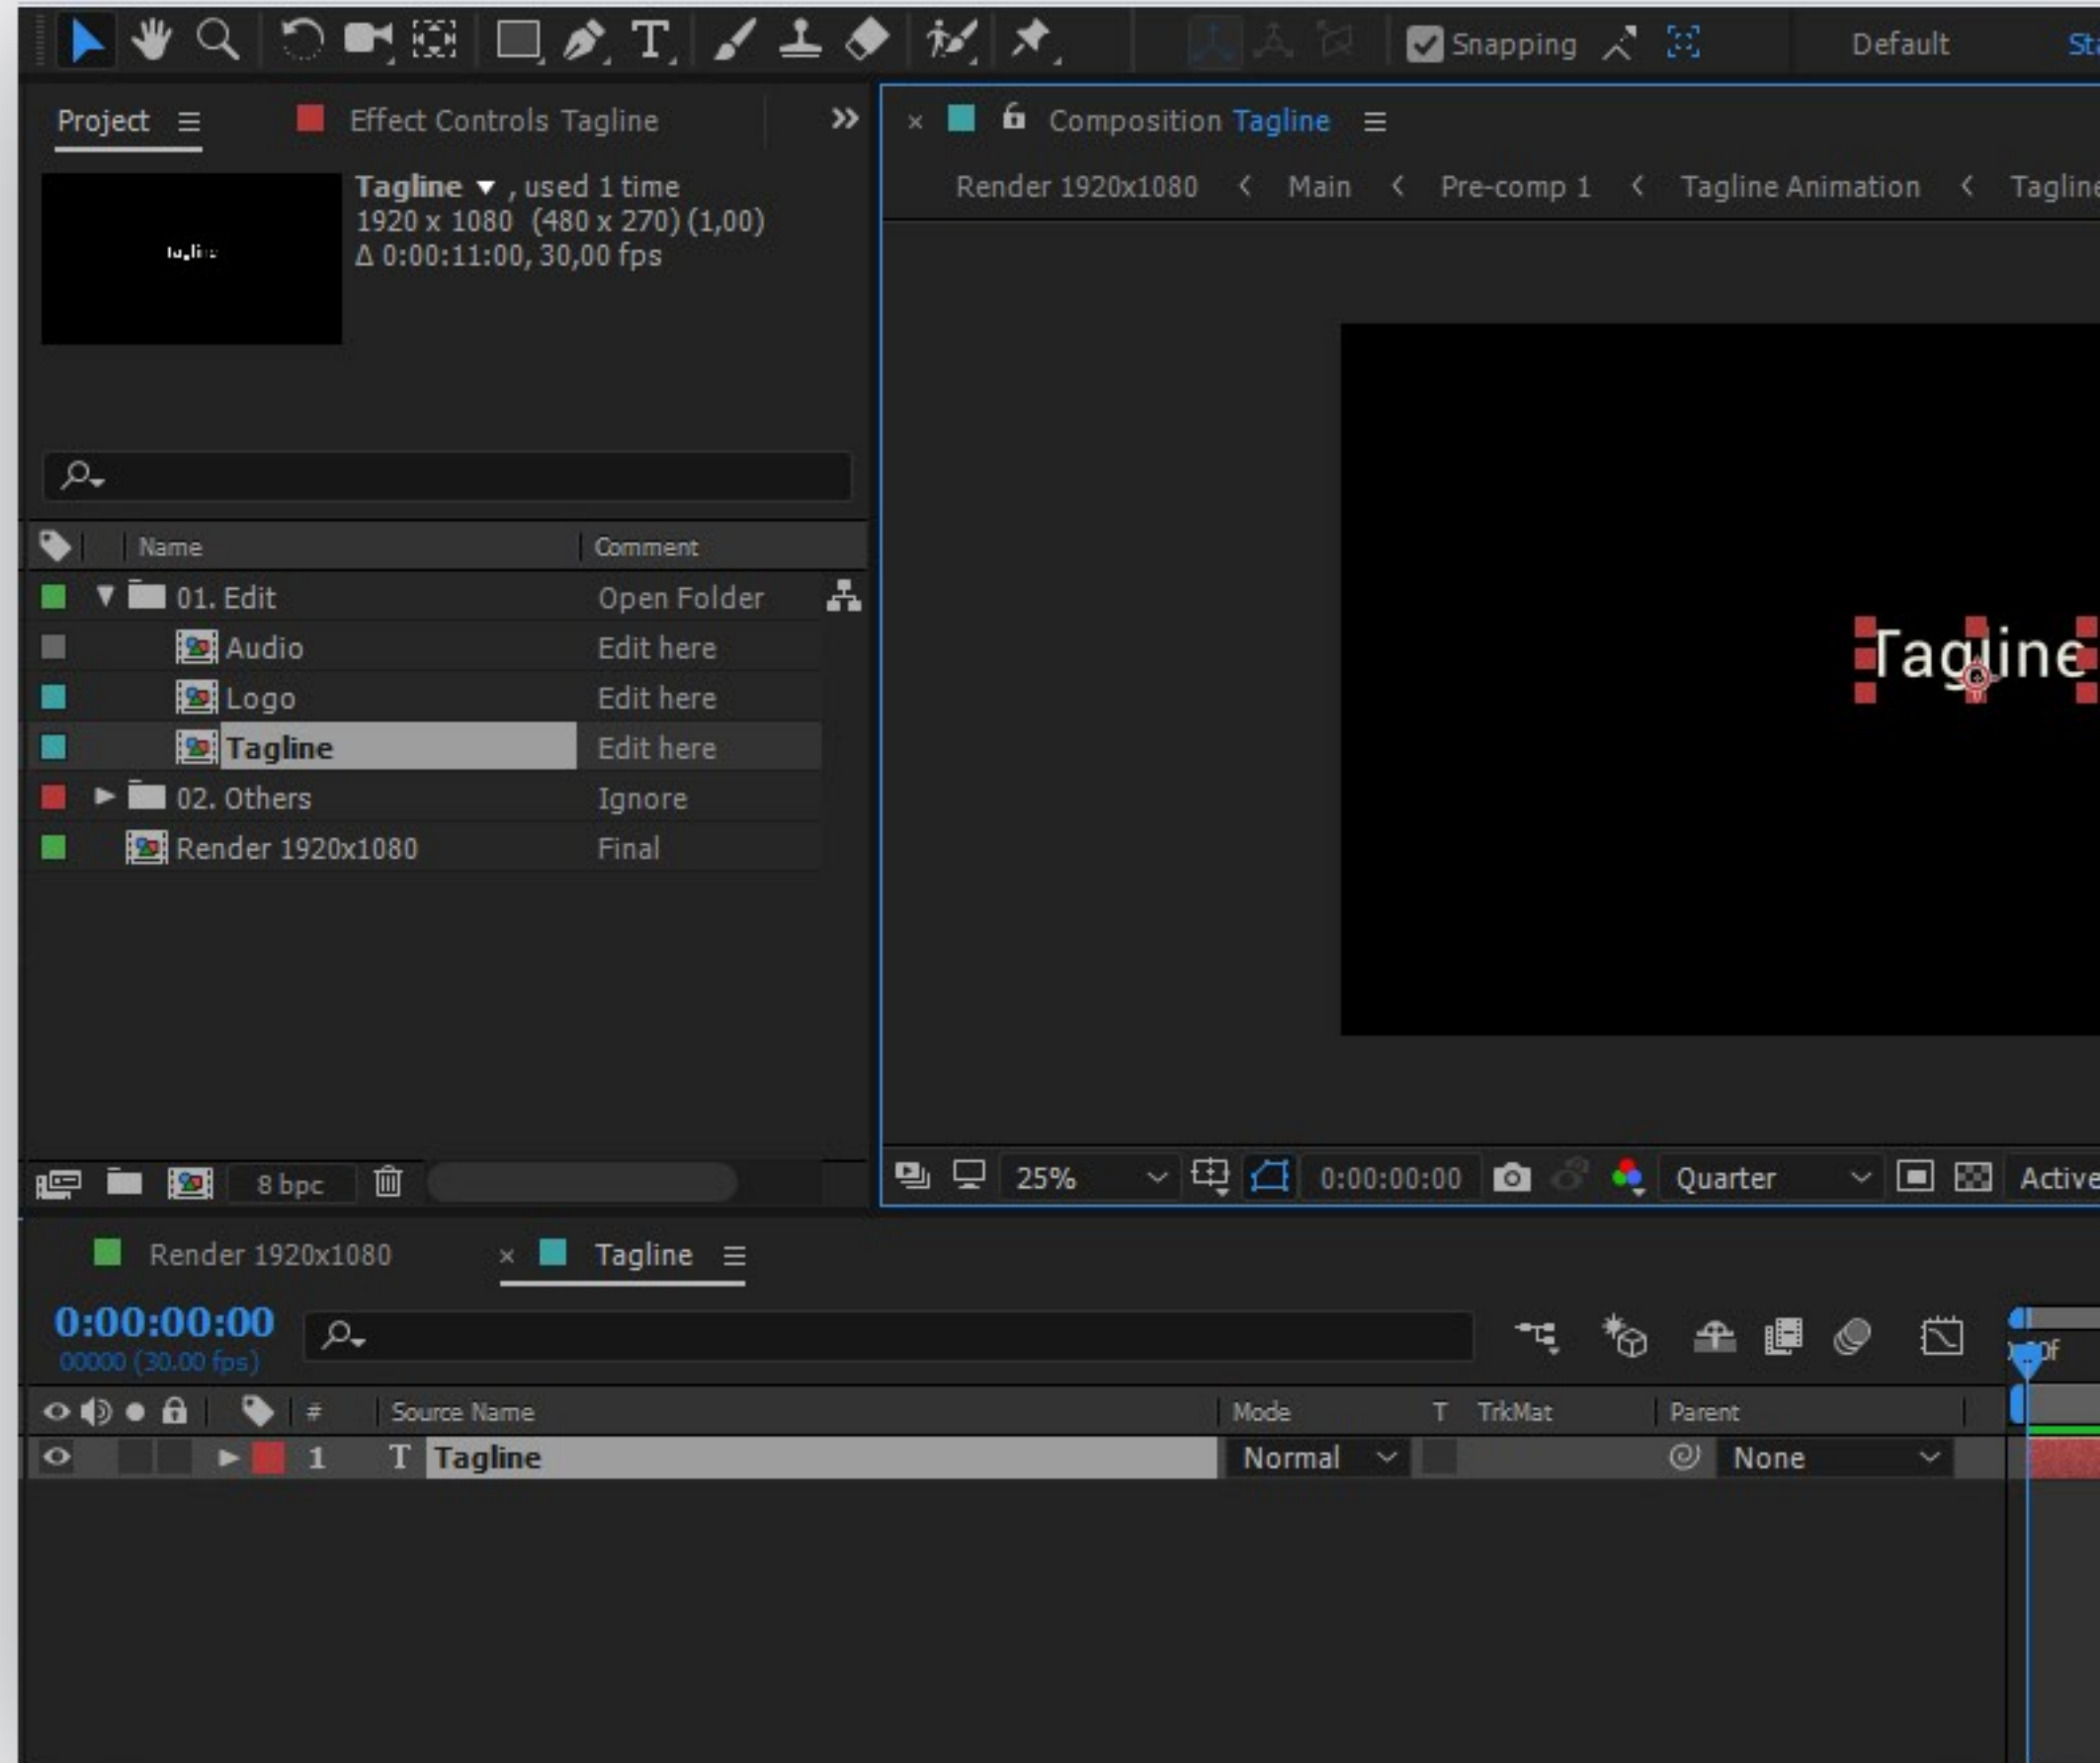

Import your logo in the project.
Open «**01. Edit**» folder
Open «**Logo**» composition.
Drag and drop your logo to timeline.

Add Tagline

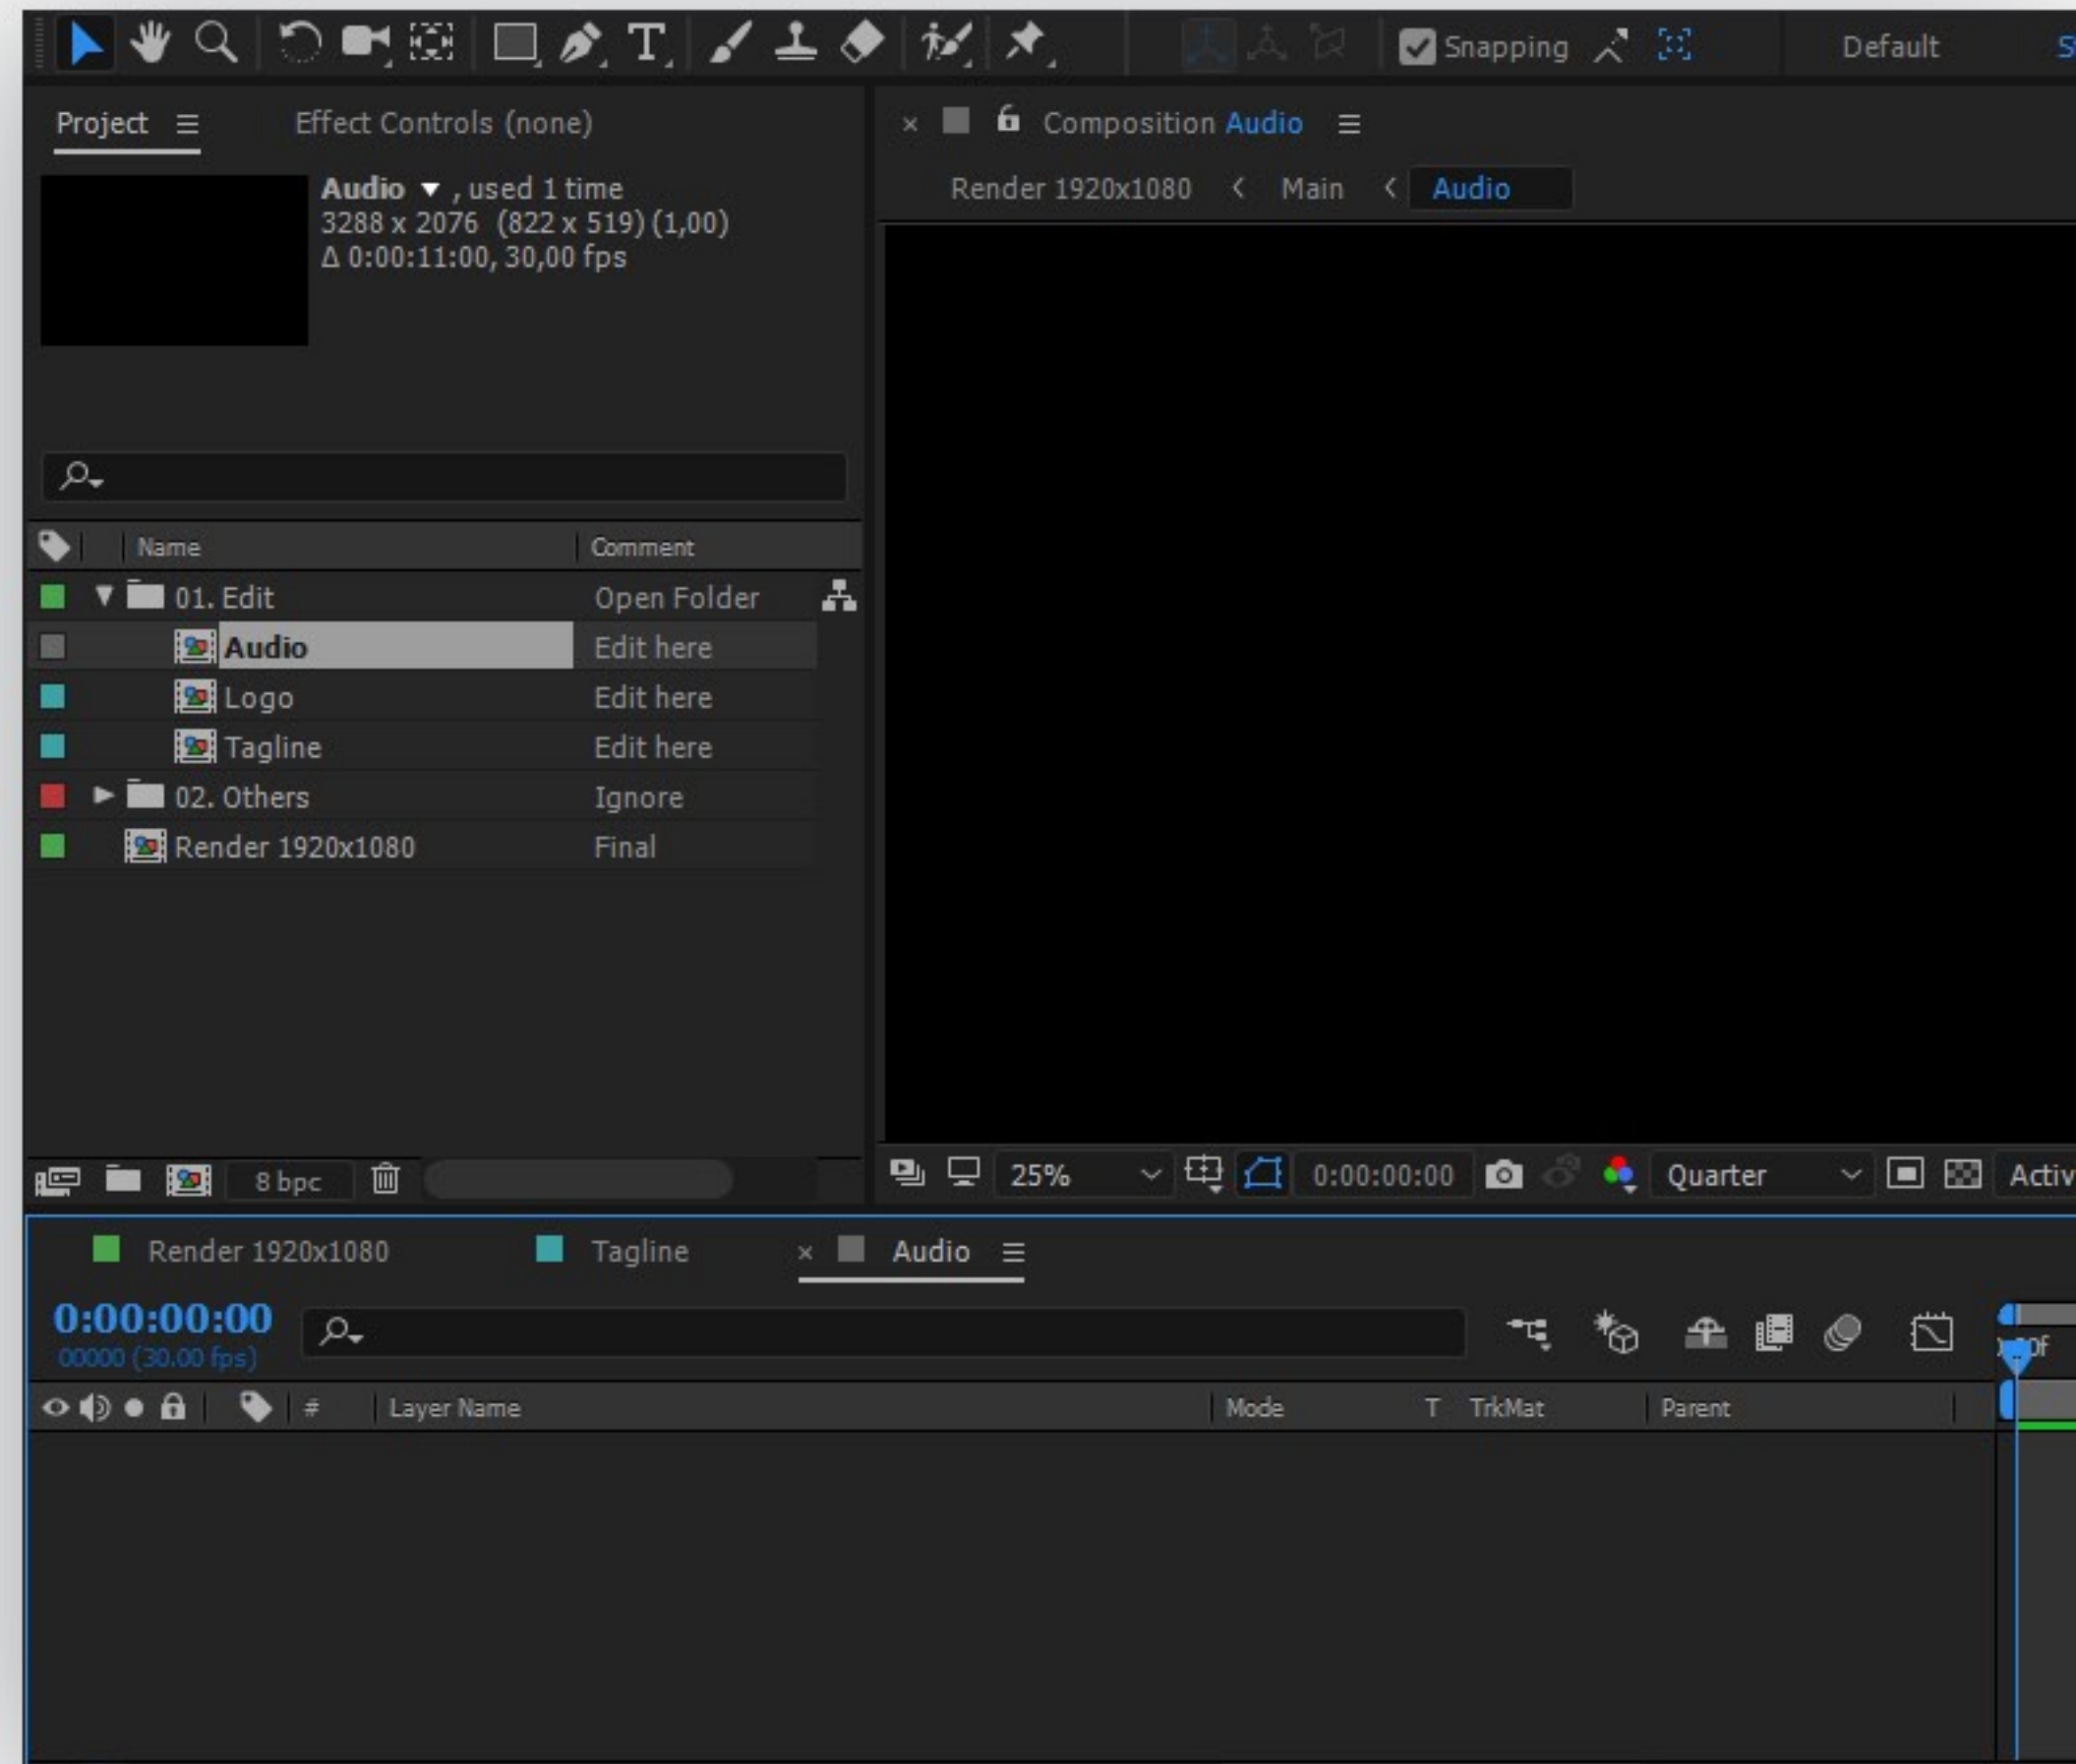

Open «Tagline» composition.
Change the text layer

Edit «Text_01» and «Text_02».
Likewise.

Add Audio

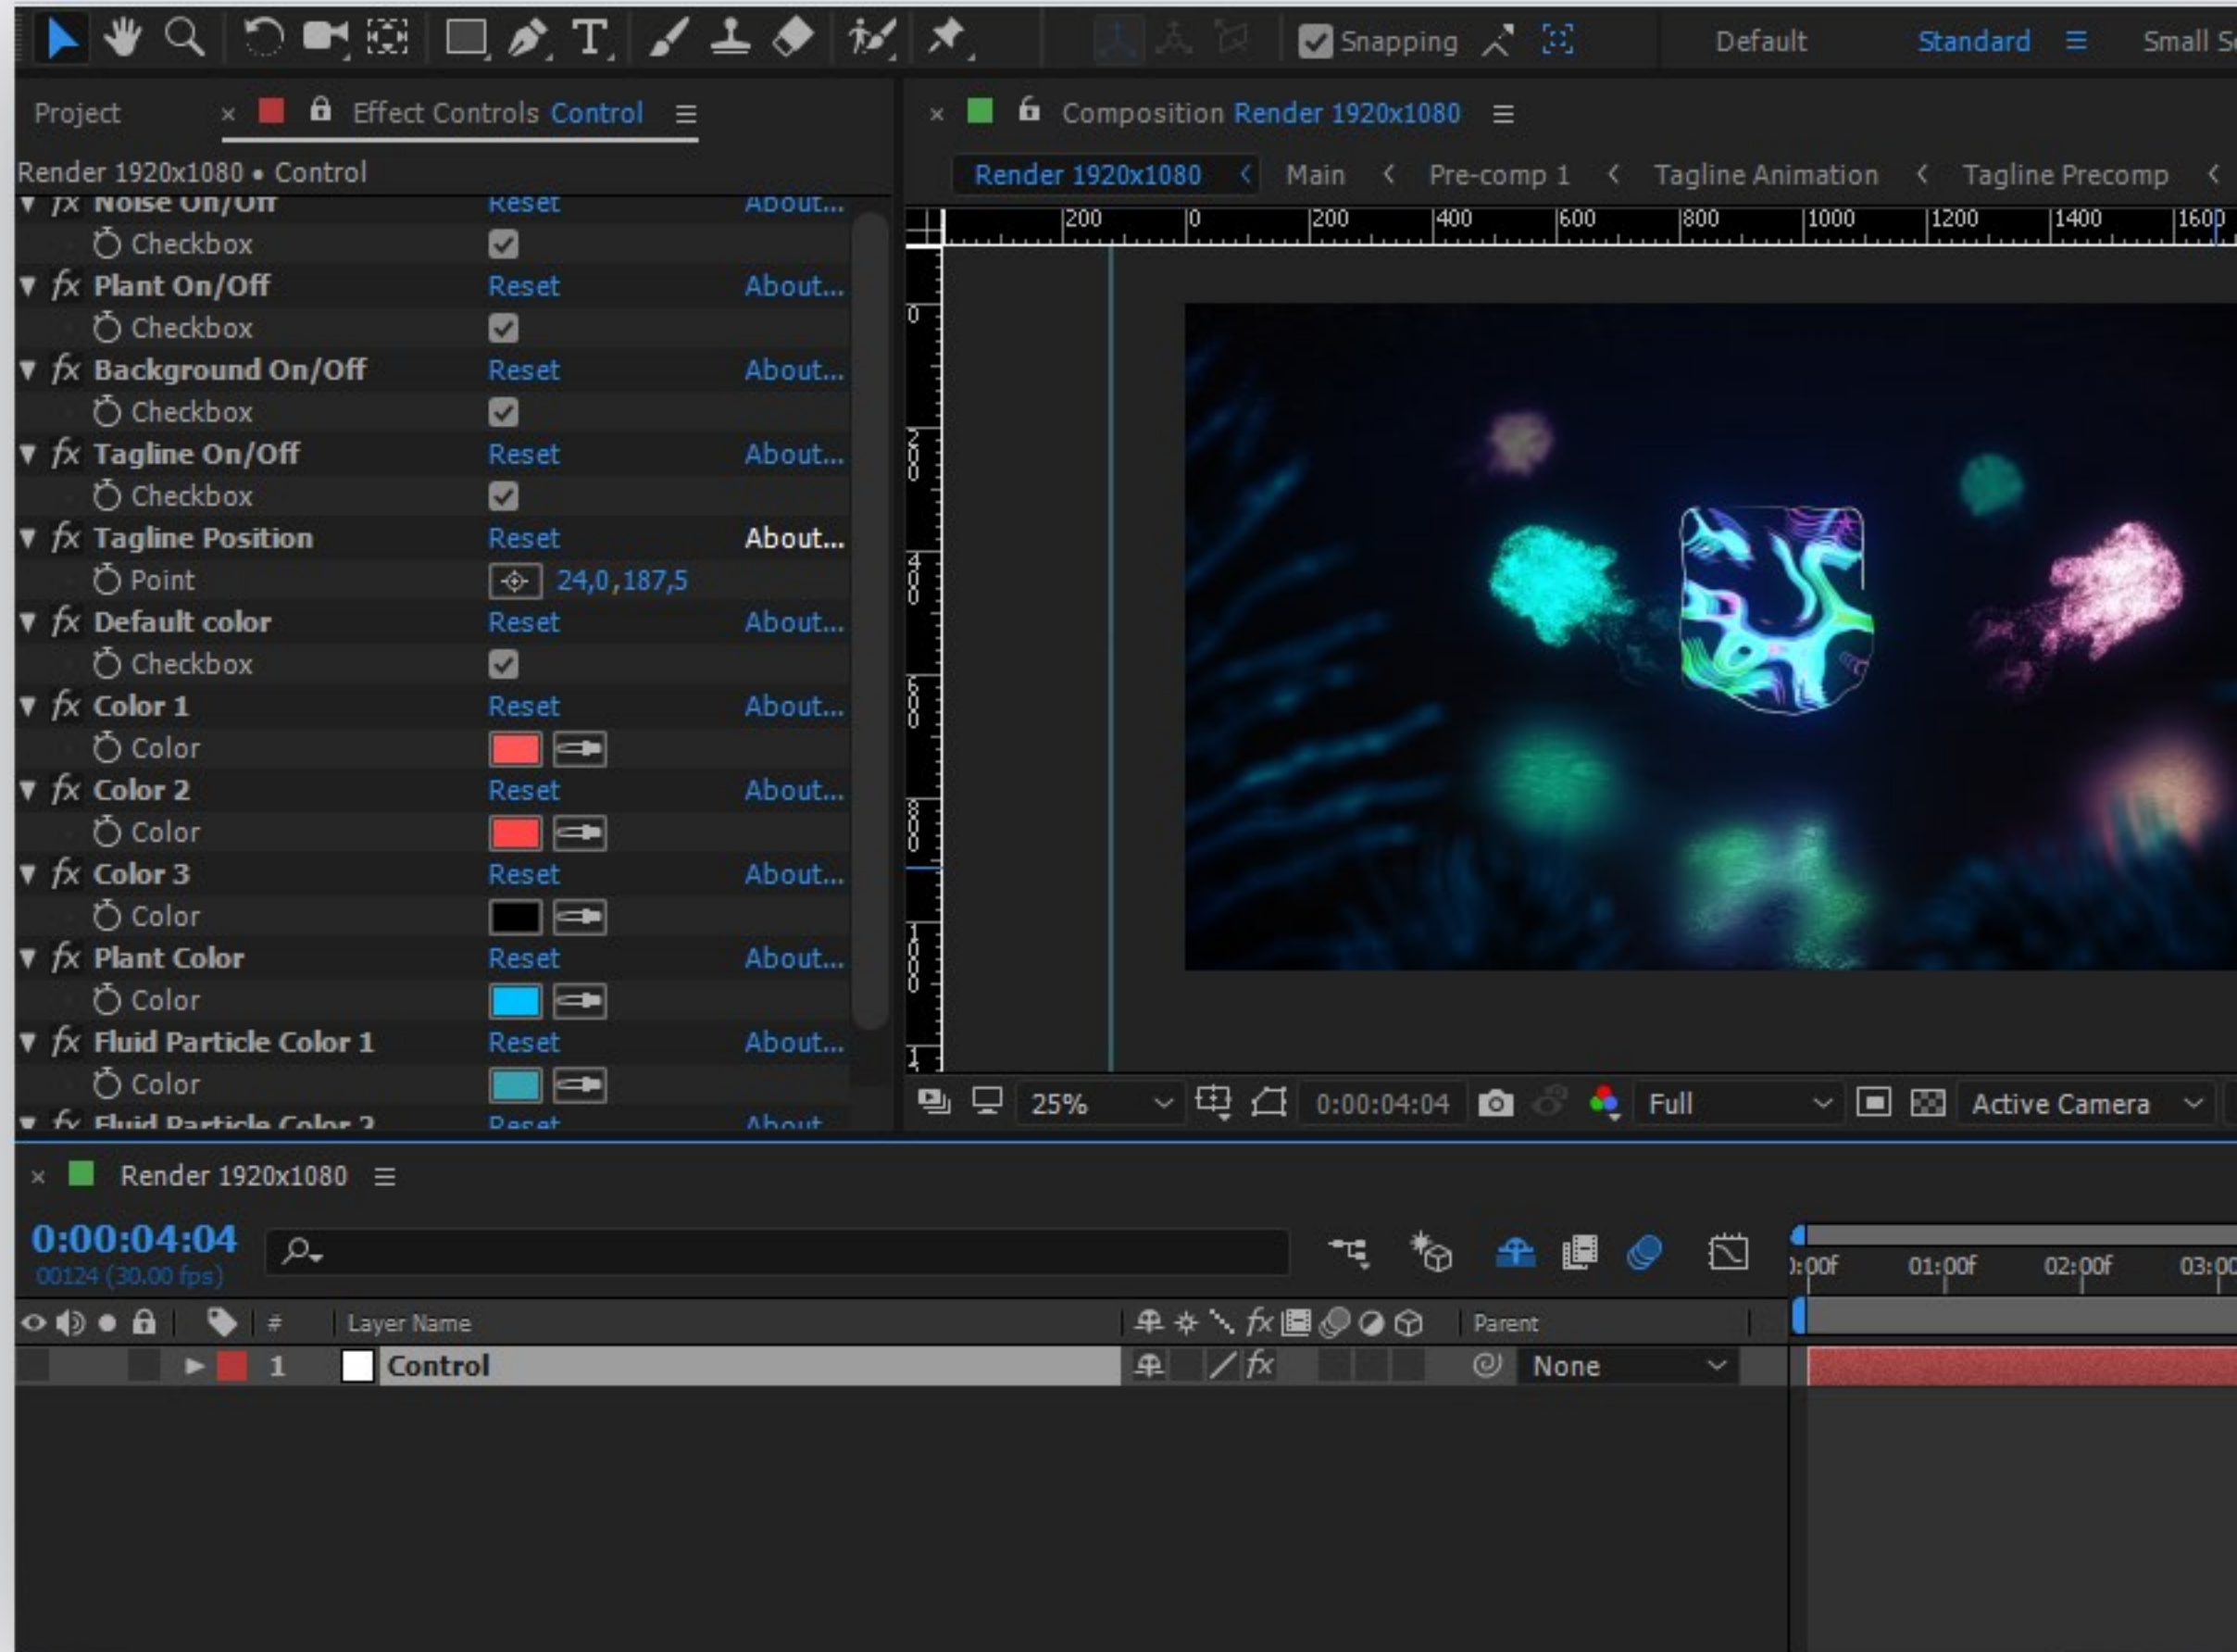

Double click composition «**Audio**»
Drag and Drop your «music»
into comp timeline.

Customization

Double click composition
«Render 1920x1080»
Select «Control» layer
for change settings

Done

Render

Comp and go to the
**Composition>Add to Render
Queue**

if you want your final render
to have audio, click on the
Output Module and check the
Audio Output
